## SIEGEL-GALLAGHER COMMITS TO A GREENER FUTURE

To underline its continuing support for environmental awareness and conservation, president and CEO Patrick Gallagher today announced that Siegel-Gallagher, Inc. ONCOR International has partnered with the United States Green Building Council (USGBC).

David L. Behnke, president of both the Siegel-Gallagher Management Company and the Siegel-Gallagher Construction Company, joined Mr. Gallagher in making this decision. “As our industry moves toward more environmentally effective policies,” he said, “we want to take an active role in the USGBC as a practical way for the various Siegel-Gallagher companies to share environmental initiatives. With corporate membership in the USGBC, we can ensure that our management teams are LEED-certified and that our policies and procedures comply with new environmental codes.” As part of the national group, he added, all future Siegel-Gallagher communications will carry the USGBC brand (see below).

“Being green has always been a priority to us as individuals,” stated Mr. Gallagher. “Our membership in the USGBC is the corporate expression of some very deeply held personal beliefs.”

With offices in Milwaukee, Madison, and Chicago, Siegel-Gallagher, Inc. ONCOR International is a full-service commercial real estate firm offering property and facility management, asset management and advisory services, construction services, and commercial brokerage of multi-family, office, industrial and retail properties.
